

# TAKE A STAND AGAINST UTILITY-SCALE SOLAR DEVELOPMENT ON PRIME FARMLAND

Make your concerns and opposition to utility-scale solar development in Knox County known to the **Ohio Power Siting Board** in writing.

**The more people who express their opposition and concern, the greater the likelihood that the OPSB staff will recommend the project be *denied* because of local opposition.**

All you have to do is shoot them an email, mail them a letter, or fill out a form on their website, whichever you prefer.

## **VERY IMPORTANT:**

In order to be filed in the public comments section of the case record, submissions must include the case number.

So, when you send them your comments be sure to reference the **Frasier Solar** project, **Case Number: 23-0796-EL-BGN**.

This will make sure that your input will get filed with the right case in their system.

## **To Get Your Comments Filed**

### **Email To:**
